**HOT RUBBLE SCATTERED** along runways of the east bank of lanes 17 to 32 in the fire at the Tri-Mor Bowl Tuesday morning as early-rising keggers were in action. The debris came from a

dropped ceiling where the fire was contained by local fire fighters. Damage was estimated at \$80,000.

## \$80,000 Fire Hits Tri-Mor Bowl

Bowling action resumed this morning at the Brunswick Tri-Mor Bowl after Tuesday's "keggers" fire which routed about 180 customers and many children out of the building without injury.

The high, or east half of the 32 lanes were closed for repairs, according to Tony Sodl, manager, who said all leagues will be able to utilize the other side which was not damaged.

He called a meeting of league officers for 7 p.m. today at the lanes.

Tire damage cost the building and \$30,000 to the contents and Sodl commanded the fire fighters for their quick action which prevented more devastating damage to the property valued at \$750,000 to \$700,000.

**Overheated Ducts**

Charles M. Donnelly, assistant fire chief, said the fire was restricted above the dropped ceiling and was caused by overheated ducts.

The building was filled with the black smoke and the fire fighters donned masks before entering. Hileman said "we had a difficult job of finding the fire in the smoke, because we did it was our part over there."

Most of the loss to the high side section was caused by hot, falling debris and by water on the lanes and approaches.

Sodl said the building was opened in two minutes and could not have worked more smoothly if fire drills had been held. "It was just fantastic. And the Fire Department did a great job."

The alarm came at 9:55 a.m. and firemen arrived with three pumpers and an aerial ladder. Hileman said the fire was under control by 10:30 a.m. Saturday, March 6, at the Granite City High School cafeteria building.

A form elsewhere in this issue confirms that the designation of six "concern categories"—ecology, education, government, health, housing or planning.

A specific problem, related to the ecology checklist, is to be noted by the individual, who also would solve the problem.

The ideas received at You-Nited for Action, Post Office

Box 148, Granite City, Ill. 62040, will be utilized to focus the March 6 deliberations on feasible, tangible, prompt solutions.

Proposed for the Community Congress at which an attendance of several hundred is expected—were made Tuesday evening at a committee meeting conducted by G. H. Schmid.

People of all walks of life are a part of the planning and are being encouraged to participate in the March 6 program, which will include six separate study groups and a luncheon address by an outstanding guest speaker.

**Nameoki Debates Financing For School Traffic Lights**

A proposal by Nameoki Township Supervisor Harry Briggs that surplus monies in the town fund account be used to finance immediate installation of automatic traffic signals at the two schools and Kretner schools was tabled at a meeting of the town board Monday night on a motion by Town Clerk Louis Whitsell.

Briggs and Whitsell, opponents for election as supervisor in the April 6 township elections, agreed to the need of traffic signals at the two schools both located in the one-half township—but differed on the method of financing. Whitsell said he preferred financing the lights with motor fuel tax funds if they are available.

Whitsell's motion provided that the town board be given an opportunity to look into the possibility of motor fuel tax financing for the traffic light project. All board members were present.

The lobby of the post office was open. Box mail will not be distributed and all windows will be closed.

**Five Held in Burglar Probe at Madison**

Police officers are holding three men and two women all of St. Louis in connection with the burglary of Sterling Television and Appliance Co., 424 Madison Ave., on Jan. 28.

The five, who were arrested at 2:30 a.m. today in Madison, when police noticed the license plates on their car matched the numbers given to police by witnesses.

No charges have been filed.

**Banks, Post Offices Will Close Monday**

Quincy City post offices, banks and loan associations will be closed for Washington's Birthday Monday, but the city offices remained at the scene about 2½ hours, using the extra time to gather equipment.

Credit Clerks

Sodl said quickly credit Mrs. Nancy Seipp who was at work behind the counter. She got on the microphone and said:

\$5 per day for crossing guards at Maryville and Kretner schools for the remainder of the school year.

**Agree Signals Needed**

Briggs said he believed that he and Ebersoldt agreed to immediate protection at the school crossings after attending a meeting of Granite City and state highway representatives to discuss the traffic hazards youngsters at Maryville school.

That meeting followed an accident at Maryville school Jan. 19 in which a 7-year-old pupil was hit and another girl was injured critically while crossing the street.

Briggs said he believed that \$2,000 in the town fund account should be used to finance the traffic light installation. He said the traffic lights will cost about \$12,000 each at Maryville and Kretner schools. The township, with only a portion and half of its current income going to the town fund, has a balance of \$42,000 in the town fund account for the 1971-72 fiscal year that begins

## Alternate Reapportionment Plan Calls for Seven County Districts

By MARION BARTOSIAK  
Press-Record Staff Writer

A proposal to redistrict Madison County into seven districts was presented to the County Board of Supervisors Wednesday morning.

Under the plan, each district would be represented by one member on the board. A previous plan under consideration is formation of 29 districts with each district to have one representative on the board.

Supervisors' board was called for 10 a.m. next Wednesday at the courthouse in Edwardsburg to consider the plans.

The board is required by law

to redistrict the county on a one-man one-vote basis, or as nearly as possible. Chairman Harold Ebersoldt, fourth with a population of 37,200, said he included Mitchell, extend north on a line just east of Poag and take in South Roxana, Roxana, Wood River, East Alton and Rosewood.

Details of the new proposal

Most of Granite City Township would be located in District 7 with a population of 36,314.

District 5 with a population of 37,247, would enclose District 7 and contain areas of Granite City south of 18th Street, Lee Avenue and Monroe Street, Madison, Venice, State

Park Place, Nameoki Acres, Nameoki Gardens, Pontoon Beach and Horseshoe Lake.

Ebersoldt urged supervisors to contact legislators to seek a year's extension to provide sufficient time to do the work.

Details of the new proposal

A proposal to form a four-man narcotics squad in the sheriff's department was approved, with \$25,000 provided for its purpose. Another \$30,000 was transferred to the sheriff's fund for other investigative expenses.

The council Tuesday night voted to oppose a request by Purdy Co. to the Illinois Environmental Protection Agency for a variance under pollution control regulations. Mayor Lee Ebersoldt, city engineer, said he would support the variance.

Two new probationary patrolmen were appointed to the Police Department on recommendation of the Board of Police and Fire Commissioners.

## Hearing of Pollution Charges by State Scheduled in GC April 6

A public hearing of air pollution charges by the Illinois Environmental Protection Agency against Granite City Steel Co.

and the steel company's county and municipal governments.

The EPA charged last October that the firm has caused or permitted air pollution which causes damage to citizens' health.

In addition, the council concurred in a suggestion by Mayor John E. Lee that William "Mike" Ebersoldt, city clerk of Venice and the only Madison County member of the levee district, be included in the second district including part of St. Clair County.

The council approved a resolution stating that the mayor of the city of Venice and the city of Granite City should be allowed to represent their districts to discuss the portion of Madison County territory (the Quad-City area) now included in the boundaries of the existing second and third districts.

The council also voted to establish a new and independent drainage and sanitary district therefrom.

In addition, the council concurred in a suggestion by Mayor John E. Lee that William "Mike" Ebersoldt, city clerk of Venice and the only Madison County member of the levee district, be included in the second district including part of St. Clair County.

The hearing is tentatively scheduled for April 6 at the City Hall unless other arrangements can be found.

The request by Granite City Steel Co. to dismiss charges will be heard first. The EPA charged that the company will then be heard.

At a meeting Monday night, Mayor Lee and city officials presented their approval of the plan a week ago. Granite City has taken no official action to endorse the move, but Mayor Donald Partney said separation

is needed to protect the community.

## Area Man Shot to Death While on Duty as Guard

Lester Bauchmoyer, 49, of 2015 Alton Ave., was shot fatally by four gunmen at 11:40 p.m. Wednesday at Christian Welfare Hospital in East St. Louis where he was on duty as a security guard.

Bauchmoyer, who had been a guard at the hospital only one year, was shot five times through the window of the hospital's emergency room while opening the door for the four gunmen to enter. He died in the emergency room at 12:10 a.m. today.

Members of Bauchmoyer's family said two relatives had last week decided to join the family home early this morning and told them Bauchmoyer answered the buzzard and, when he waved the gun outside, that he could open the door, they fired through the window.

They said another guard on

the outside of the building also was shot but was not hit.

Police said the gunmen shot at a car sitting in a car in front of the hospital, missing them.

**Was Auxiliary Policeman**

Prior to working for the hospital, Bauchmoyer was a security guard at Adelphi Hospital in St. Louis, for several years. He also was an active member of the Madison Civil Defense Auxiliary Police for five years.

An autopsy was held this morning but results were not disclosed immediately.

East St. Louis police said that Bauchmoyer apparently had relieved another security guard early as he was not on duty until midnight. Police received the call of the shooting at 11:40 p.m. and were told at that time that Bauchmoyer was in critical condition.

Mr. Bauchmoyer was born in Columbus, Ohio, and moved here in 1951.

He is survived by his widow, Mrs. Dorothy Bauchmoyer; son, Eugene Bauchmoyer, 17, at home; and Ned Bauchmoyer, who is stationed with the Army at Fort Leonard Wood, Mo.; two sisters in Ohio and several nieces and nephews.

Funeral arrangements may be found in today's obituary column.

**AID TO UNIVERSITY COMMUNITIES** is discussed. Chancellor John S. Rendleman of Southern Illinois University's Southwestern campus met with area city officials and legislators Monday to discuss possible state aid to cities in which large numbers of SIU SW students live. The Illinois Municipal League also is seeking legislative approval of a proposal which would provide \$25 per capita, per year, for balance of the tax levy helped in the town fund account for the 1971-72 fiscal year that begins

## McKendree Plans Fund Drive for \$300,000

The President of McKendree College, Dr. Eric N. Rackham announced today that the trustees have approved a new fund raising drive.

Dr. Rackham said, "The Board of Trustees has authorized a campaign — McKendree Faces The Future — to raise \$300,000 for the college by July of this year."

These days, financial difficulties are plaguing college favorites, and McKendree is no exception. According to a recent Carnegie Commission Report, two-thirds of the nation's colleges are facing financial difficulties leading to financial disaster. Higher education has come upon hard times . . . serious enough to be called depression."

What specifically ails these private institutions? Money. McKendree College and the others find themselves caught in a cash squeeze. Limited student markets, rapid rises in operating costs, and pressure for additional gift support all contribute to the problem. This year alone at McKendree the need for gifts has risen over 10 percent. McKendree's 1970-71 operating budget is \$1,798,335, four times that of 1960.

### SELECTING VARIETIES OF SMALL FRUITS

You can enjoy growing and eating small fruits anywhere in southwestern Illinois. Strawberries, blackberries and raspberries are cross between the blacks, but they are very vigorous and require more space per plant. The berries are usually produced in a single year or else the fruit cuttings are used for new plants. They produce well in the garden.

Variety selection is important, but it's not as critical with tree fruits. Small fruits require less space, less time to care for, and are easier to plant and renew. But many of the small fruit varieties are more specific in their adaptability. The smaller varieties limit the city to overcome localized soil condition. Remember, this as you read the appealing description of every variety in the nursery catalog.

Strawberries are one of the most widely planted and most delectable of the small fruits. A large number of varieties are available, ranging from the early to the late season.

Clyde and Sodus are spring bearers, and Purple Autumn is a fall bearer. Rick Cavins, 2300 E. 24th St., reports that some have been removed by the birds.

## Airport, Boy Scouts Rotary Club Topics

The new proposed airport and Boy Scouts were the topics of discussion at the Wednesday noon meeting of the Madison Rotary Club held at the Madison Recreation Center, Seventh and Lee Streets, in Madison.

A brief side discussion on the economic impact of the proposed metropolitan airport was given by Larry Peterson, public information representative of the State of Illinois, Department of Economic Development.

Patterson pointed out that no definite site has been selected, although a choice has narrowed to three sites. He did elaborate on details of the sites.

Patterson emphasized the new airport would have a highly positive effect on the economy of the entire area, providing numerous jobs which, in turn, would increase retail sales.

Special guests in honor of Boy Scout Week, Feb. 7-13, were Harry A. Thebeau and Alexander Schenck, regional executive for Region Seven of the Boy Scouts of America. Region Seven includes Illinois, Indiana, Wisconsin and Michigan with headquarters in Oak Brook, Ill., a suburb of Chicago. Potter provides professional guidance to seven Boy Scout councils in southern Illinois.

Other Scout officials present were William Monical, scout executive of the local Cahokia Mound Council that takes in the southern half of Madison and all of Bond County.

District Scout Executives present were Phillip Dixon of Highland and Bill Irion who serves the Quad-Cities.

The Madison Rotary is in the process of organizing an Explorer post for high school age boys in the area.

The meeting was a perfect attendance record by only thirteen as 28 members and guest were present.

Rotary will continue the celebration of Boy Scout month next week. Merrill Ortwin, president of the local Scout council will be the guest speaker.

They were still there Tuesday night to claim items they had left. In the billiard room, workers had laid out bowling balls and bags, lighters, purses, and other items left by the bowlers. Most found their possessions.

March 1, Prior to Briggs' surprise announcement of the tight installation, Whitsell announced in Monday night's meeting that the fund balance would mean the elimination of the tax levy.

Briggs' plan to cut the town's traffic out of the town fund surplus was approved, which would prevent removal of the town tax levy, at least in its entirety. That the issue of the proposed road tax was a political tug of war between the two townships.

Whitsell, however, said a kiosk if there was a way to signal the traffic signal, the town fuel tax would be reduced.

### Coolidge Sweeps City Mat Tournament

There was no contest off the board as Venice dominated the rebounds 58-16 with Gardner taking 21 and Johnson 17. "Wescalin had a bad seed," said the coach. "They have a lot of experience," Coach Bill Ohlendorf noted. "I think they even have a couple of freshman on their varsity team. The game gets to be a little bit of a struggle, and give some of our reserve players a much needed rest. I started taking out my first string players in the third quarter."

The victory upset the Red Devil record to 17-4. They will play three more home games. Bunker Hill will visit to Venice for a varsity game at 8:15 p.m. on Friday.

Venice led early, driving 21-7, and in field goals 40-13. Wescalin committed 18 fouls and Venice

## Cougar Drive Falls Short, Rivermen Win

Southern Illinois University-

-Southwestern's basketball team was in the home-stretch drive with five more games remaining on its schedule, two on the road this weekend and three at home the week of Feb. 22-27. Friday, the Cougars will play St. Ambrose College at Davenport, and Saturday they'll be at Quincy College.

Now 13-8 after dropping a hard-fought 101-97 decision to Coolidge last night, the Cougars will meet the Rivermen at St. Louis Monday night. Coach Jim Dudley's Cougars are assured of at least a .500 season, but neither Dudley nor his charges recorded a win for that record with a recent loss.

Showing plainly the toll of three brutally "physical" games over four days, SIU's Cougars left the floor at the intermission, trailing 44-24.

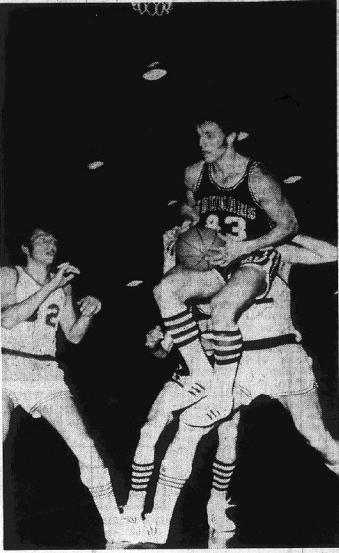

Then with six minutes remaining in the game and trailing 49-24, the Cougars began their rally which came close to

pulling off a victory. It truly was a rough contest, with Rich Essington and Champ Summers SIU-SW's four out and UMSL's four out of their starters via the same route. Essington took scoring honors with 26 points while Summers netted 25.

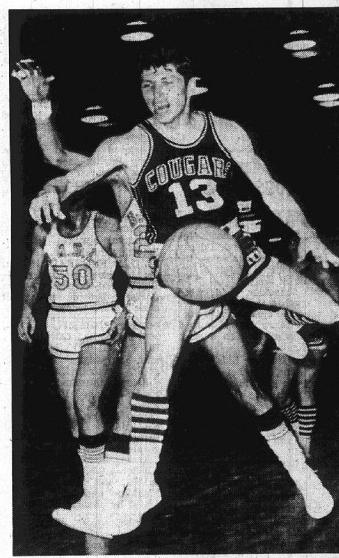

Coming on top of the Cougars' bruisin' losses to North Central and Missouri, the Cougars' latest loss to the Rivermen was the 10th straight for the Cougars this season.

However, the Cougars have gotten some good news: their sophomore scoring ace, Dennis Murphy, has recovered from appendicitis, was found OK and ready to return to action.

Statistics show a three-man race between Essington, Throneburg and Summers for the scoring leadership. Essington leads with 17.50, Throneburg is next with 17.50 and Summers is closing in fast with a 15.62 figure.

**ACTION SHOT SHOWS** why John "Champ" Summers is SIU-SW's top rebounder. He leads the Cougars with a total of 165, or 7.86 per game. He's No. 43, of course, in action Monday night against UMSL.

**LIGHTNING BOLT ACTION** by SIU-SW guard Harry Miller in action during a basketball game. Miller is shown as one of the top scorers on the Cougar squad this season. He took scoring honors with 26 points Monday night, but UMSL won 101-97.

### Warrior Wrestlers to Vie

### For 14th District Victory

Granite City High School's wrestlers will attempt to win their 14th straight district tournament.

Wednesday night at Bowland Kline's Interiors 1085, 3013, Granite City, the Warriors will compete in the 14th annual district tournament.

Friday night at the Granite City High School's gymnasium as they compete against 14 other schools on the first step toward the state finals Feb. 26 at the state gymnasium in Springfield.

Warriors Coach Bill "Red" Schmitt said this week that the squad will compete without heavy weight #4 Mark Mizerak, a doubtful starter. Mizerak was expected to recover from a muscle strain in time for the tournament, but he has withdrawn from Schmitt's list of state hopefuls. Miller was out of action for two weeks with an arm sprain. Schmitt says he may return in time to compete Friday night.

Only one champion from last year's district tourney will compete this year and that is Dan Janney (15) from East St. Louis Lincoln and Rich Wilson (heavyweight) from Roxana.

Granite City has a record of 249 wins, 106 losses, 272 losses, 14 draws for 835 team points. Their record in dual meets this year was 40-8.

## 'Red Heads' Defeat Coaches in Benefit Cage Game Here, 77-70

Memorial Gymnasium was packed last night as a partisan crowd of more than 2,600 spectators applauded the antics of the "All American Red Heads," a professional women's basketball team whose skillful expertise and laugh-provoking ball handling gave them a 77-70 victory over coaches from Granite City Senior and Union High Schools.

Proceeds from the benefit cage game sponsored by the Boosters of the Fighting Warriors, will be used to defray expenses of constructing less costly facilities at Granite City High School athletic field and the cost of purchasing video tape equipment for the coaching staff.

The professionals' opposition were coaches from Prather, Coolidge and Grigsby Junior High Schools and Granite City Senior High, with each playing separate quarters.

As the contest progressed, the

coach's team — by breaking shouts from their student and adult supporters — opened up the play and outscored the Red Heads, 23 to 21 in the Coolidge coaches' third quarter.

Coolidge Head Basketball

Coach Rich Williams fed the home team scoring with 13 points, while the Red Heads team captain, Charlotte "Sweetie" Adams, tallied 26 points to lead the opposition.

**Environmental Agency Replaces Water Board**

Attorney General William J. Scott ruled this week that the state's Environmental Protection Agency inherited the powers to issue permits formerly held by the Sanitary Water Board.

Scott held that the Waukegan Port District must obtain a permit from the agency before it constructs a runway around a breaker in Lake Michigan south of Government Pier.

Under legislation supported by the Attorney General, the agency was created last year as the state's administrative arm in combatting pollution. The legislature then repealed laws under which state water and air boards formerly operated.

The opinion was requested by William F. Cellini, director of the state Department of Public Works and Buildings.

"The General Assembly clearly intended to substitute the Environmental Protection Agency for the former Sanitary Water Board in matters involving environmental protection," Scott held. Any action by the legislature would have been "highly inconsistent," he added.

Both cars were damaged.

**SIU-SW Executive Urges Legalization of Marijuana**

A Southern Illinois University-Southwestern campus executive said the Illinois Crime Investigating Committee in Springfield Monday that he favored the legalization of marijuana in Illinois and if studies prove LSD safe, that drug also should be legal.

John Paul Davis, assistant for legal affairs of the Illinois State University-Southern Illinois University, informed the committee of his feelings in what he termed a "personal" statement. He said that prohibiting marijuana violates "common sense" and that by increasing its use, it would better serve public interests than does the present prohibition.

He said that "bad trips" may be caused from too potent a dosage obtained illegally and control of substance could end this problem.

The state is no more likely to prohibit the production of LSD than it is to prohibit bathtub gin, he said.

Davis expressed his support for programs against heroin use and urged tighter restrictions and stricter measures of enforcement of the law.

He also urged the state to study the possibility of implementing a methadone treatment program in Illinois for heroin addicts similar to the successful programs now used in California and New York.

Davis, who said he does not advocate the use of drugs, told the committee that implementation of such measures would suggest "a bold step" to serve public interests than does the present prohibition."

Prohibition also increases the gap between generations by causing young people to question lawmakers who prohibit marijuana but allow alcohol, "which kills thousands annually," he said.

The Board of Directors of National Tea Co., has declared a regular quarterly dividend of 20 cents per share payable March 1, 1971, to shareholders of record February 19, 1971.

**Warfield Petitions Filed by Friends**

Granite City Street Superintendent William Warfield did not intend to be a candidate for re-election in this year's April municipal election, he said in a telephone interview.

Warfield, who has been hospitalized for several weeks, said petitions of candidacy were filed in his behalf by friends who circulated the petitions after he entered the hospital.

The street superintendent, who has been with the department since 1945, said he had withdrawn from the city election race after he learned petitions had been filed for him because "I sincerely want to retire."

Warfield said, "I believe my retirement is the best thing for the city to do. Street department employees are required by ordinance to retire when they reach the age of 65. I would like to resign at 65, continue past the age of 65 when the employees under my jurisdiction are required to retire at that age."

He said he also is retiring because "it is the most important thing to me. I want to enjoy retirement at my lake front home at Coffeeen and do the things I so much enjoy."

## Regional Report -- Population Showing Rapid Increase

(Illinois Metro-East Industrial Development Corporation)

A total of 536,110 people resided in counties of Madison and St. Clair in 1970, according to final population figures released by the U. S. Bureau of the Census. St. Clair has 285,176 people, compared to 250,934 in Madison County.

The Southern Illinois Builders Association has filed suit in U. S. District Court in Springfield, in an attempt to resolve a dispute between the State of Illinois' requirements for the use of black labor and the agreements with labor unions. The suit asks a judgment on whether a training plan developed by Gov. Ogilvie takes precedence over collective bargaining agreements between contractors and unions.

A bond issue to help build a \$5.3 million vocational building has been approved in Alton. The bond issue was by 180 voters to resolve a dispute between the State of Illinois' requirements for the use of black labor and the agreements with labor unions. The suit asks a judgment on whether a training plan developed by Gov. Ogilvie takes precedence over collective bargaining agreements between contractors and unions.

In Edwardsville, a second attempt to pass a \$465,000 bond issue was defeated by the voters of the Edwardsville Community Unit School District. The money would have

been used to help rebuild a gym-auditorium complex at Edwardsville High School. The Riverfront project was approved by voters last fall of more than 4,000.

St. Louis University, which operates Parks Air College in Cahokia, has announced that the college will remain a part of St. Louis University, but will become financially independent.

St. Louis University, a private school, had been looking for another sponsor of Parks for over a year. A request by the Illinois Board of Higher Education to operate the college as part of SIU was refused by the State of Illinois Board of Higher Education.

The renamed "Pride in Woods River" community of Woods River Civic Action Association has hired a landscape architect to prepare a beautification plan for the downtown area of the city of Woods River. The architect, George Dickie of St. Louis, will suggest improvements in lighting, tree plantings and street signs.

Preliminary plans should be available in February. The cost of the landscape architect

is being borne by the merchants of downtown Woods River.

The U. S. Department of Housing and Urban Development has approved a \$27 million project to build 247 units of low-income townhouses for families in East St. Louis.

The project will be built on previously cleared land between Broadview and Missouri Avenues in East St. Louis. A \$600,000 commercial center will be built near the project.

A new conservation area proposal for the Illinois Conservation Commission, Donald Hastings, an Illinois state conservation officer, had suggested that the abandoned right-of-way of the Terminal Railroad be utilized as a footpath, bike trail or nature preserve.

In general area news, the first meeting of the St. Louis Terminal Railroad Association, Belleville Area College is under way; B. W. Hilgard has been re-elected president of Belleville New Industries, Inc.

Edward Kellogg is the new president of the Chamber of Commerce of the Tri-Cities; and Charles Tosovsky is the new president of the Edwardsville Area Association of Commerce and Industry.

# You've changed. We've changed.

You're in a mood to demand a lot more for your money. Good.

For the price of a Chevrolet Nova you get two cars in one: a not-too-big car and a not-too-small car.

Nova

The not-too-big Nova.

It fits neatly into garages. It's only 189.4 inches from end to end. Only 72.4 inches wide. Makes impossible parking spaces possible, thanks to its 111" wheelbase and a 41.4-foot turning circle.

It's a gas squeezer. Pick the standard 6 or V8 and you can beat your fuel economy and performance too.

It's an agile one. Along with Nova's tidy-size wheelbase and wide stance, you get taut steering. So you also get enjoyment out of taking curves and corners.

The not-too-small Nova.

The coupe seats five, the sedan six. Full-size,

comfort-loving adults in each instance.

At home on the highway. Nova's hefty weight and 59-inch tread give it a solid grip on the road, make it supremely comfortable to drive.

Rides more like a big car. We even match the springs to the weight of the car and the equipment you order on it.

Make's comparison. Then go to your Chevrolet dealer's. See how much value Nova has going for you.

Here's where your money gets you two cars in one. A value showdown will prove it.

## Bill Requiring Disclosure Of Income Filed in Senate

Legislation requiring public officials to disclose sources of income as well as political spending was introduced in the Illinois Senate at Springfield Tuesday.

The bills, designed to carry out recommendations to the General Assembly by Governor Richard B. Ogilvie, were introduced by Senator William C. Harris of Pontiac, a member of the minority leader in the Senate.

Harris explained the legislation will apply all public officials, both state and local, who receive more than \$3,000 annually from their offices.

The governor issued a directive last month requiring all state officials under his jurisdiction who receive more than \$3,000 per year to detail the sources of income. The proposed legislation would require public officials—or candidates for public offices—to

report each year their specific sources of income, naming companies or individuals from which income was received.

He would not be required to report the amounts received or the percentage of salary or percentage of shares he owns. No worth would not have to be reported, Senator Harris said.

The measure also is to be supported by Senator Everett C. Clarke of Western Springs and Robert Coulson of Waukegan, the other Republican assistant minority leaders.

Promotion of the legislation was given impetus by the recent disclosure that the late Secretary of State Paul Powell amassed more than \$2 millions, including \$800,000 cash found in his Springfield apartment and office, Harris said. The senator said "it is clear the public is deeply concerned about the credibility of elected officials."

## Retired Workers Group Names Committees

Despite the frigid weather, 21 members and three guests attended the National Association of Retired Federal Employees Chapter 1067 (NARFE) monthly meeting Monday at the Patrick Homes recreation center.

Howard Graham was welcomed as a new member of both the local chapter and national association. Guests present were Jack Bought, Mrs. Dorothy Jones and Mrs. Mae Watson.

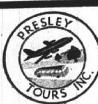

Six committee appointments were made. Mrs. Mae Watson, Franklin was placed on the legislative committee, Mrs. Dorothy Upshaw was appointed to the sunshine committee and Mrs. Jean Jones was appointed to both the entertainment and program committees. Ed Erney was named chairman of the program committee and Mrs. Jean Franklin was named to assist him.

Members were urged to read the new issue of the NARFE magazine and study new legislative items affecting retired federal employees.

All members were urged to join the chapter and drive now underway by the chapter, and were told that a new list of potential members has been prepared and may be obtained by calling Erney's office at 931-3024.

Cake and coffee were served by the ladies following the meeting.

The home of Mrs. Ray Schaffer, 4034 Stearns Ave., was the meeting room Tuesday evening for Chapter KU of the P.E.O. Sisterhood. Seventeen were present.

Mrs. George Coddling presided. The program entitled "The Flash of Need" was given by Mrs. Dale Rea and Mrs. Vernon Sharp, who presented a history of the need, and the story of its use during the war.

Refreshments were served by the hostess and plans were made for the next meeting April 22 in the home of Mrs. Mavis Nafziger, 2595 Edison Avenue.

## ATTEND INSTALLATION IN DANVILLE, ILL.

Mr. and Mrs. Ray Hoelter, 3037 Randolph Drive, have returned from Danville, Ill., where they were guests of honor at an installation of officers and dinner of the Disabled American Veterans and Auxiliaries.

Mrs. Hoelter, state commander of the DAV Auxiliary, served as installing officer for the Aux. She was presented with a plaque at the conclusion of the event, and dinner followed the installation ceremony. The Danville DAV dedicated a Congressional flag which had flown over their house. It will be in honor of a deceased member and past National Commander, John Unger, who is well known throughout the United States for his work for disabled veterans.

A dance was held after the next meeting of Teen Age Democrats will be held at 7 o'clock this evening.

ELECTRONIC AIR CLEANERS CALL 876-2626

The brand-new dream house has just been built. The last curtain has been hung — and then the Broadway company has come to town that has just been transferred clear across the country.

If this story sounds familiar, it's because it often happens. In 1970, it's estimated that in 1971, a total of 12½ million American families — or one out of every five — will pull up stakes and change residences.

Most families make local moves, which involve short distances within the same city or county or to an adjoining county. But at least one-fourth of all moves are to a new state.

The mobile American is nothing new. We have always been a mobile society. But the number of mobile Americans increased in 1970.

### Reasons Are Numerous

The reasons for moving are many. During years of young parenthood, through the teenage years of children, families move mostly because they need larger homes or because they want to take advantage of better job opportunities.

The Bureau of Census estimates that "white collar" and professional people move three times between the ages of 20 and 40.

As children leave home, people move back to smaller houses and apartments. With retirement, there is often a move to a smaller home. Sometimes a move is made for health or educational reasons.

Occasionally a family will move to get away from its troubles and problems. The family goes with it. Often the family will turn around and move back where it came from.

Moving has become part of the American story of advancement. People associate moving with advancement rather than backward movement. People generally move "up."

Although transfers by business firms have grown rapidly in recent years, the "corporation" does not move up the rank of family moves. The American Movers Conference estimates 30% of all interstate moves involve military personnel, who move for individual reasons. The remaining 40% are corporate moves.

The American Movers Conference reports that the idea of moving the children is the most popular move. "Mother is generally 'goes along'; she often selects the moving company and makes all the arrangements.

Entrepreneurs feel such an altitude and economy are often cited as advantages of a move. People also look upon the social, cultural and economic advantages.

Northeastern National Life reports that the greatest worries of a family move are: 1. The logistics of the move itself; 2. finding friends; 3. finding new housing; 4. adapting to new shopping patterns.

Establishing a good relationship with a new doctor, dentist, etc., is important.

Families moving can be glad they're going by Conestoga wagon to the North-West Territory. The days of packing a worldly possession and sending them long gone.

Now moving is conducted by a highly regulated industry that offers personal

high when a family moves, often because of separations of families and friends. A good many families are transferred at the time they never even move.

The more a person likes his home, the harder it is to break away. And the older the adults and the children, the harder it is.

### Most Objections Unfounded

But 70% of the families who objected to moving discovered that their objections were unfounded.

The man of the house is the member of the family most receptive to the idea of moving, the children are least receptive. "Mother is generally 'goes along'; she often selects the moving company and makes all the arrangements.

Entrepreneurs feel such an altitude and economy are often cited as advantages of a move. People also look upon the social, cultural and economic advantages.

### DANCE FOR PRE-TEENS

Pre-Teens of Kirkpatrick Homes held a dance at the recreation center Tuesday evening. The group welcomed back Mrs. Evans, a leader who was the advisor during 1969-70.

The new session started with suggestions on enforcing new rules and Mrs. Evans announced that all interested persons are welcome to attend. The age level is 11-18 years.

Providing music for the dance was a local trio, "The Parc Band," which has won several band contests. The theme is "battle of the bands" in Pantomine Beach. Members of the band are John Chiappa, lead guitar, Jim Chiappa, drums, and Bob Agapito, bass guitar. The group plays music for the leaders of a school carnival held March 5-12.

Assisting Mrs. Evans were chaperones, Mrs. Doris Gaines, Mrs. Loretta Allen and Mrs. Rose Fuller.

Thirty-four participants were Laura Carrich, Anne, Jo Marie and Kathleen DeRuntz, Mary Beth Favier, Rose Marie Horbet, Betty Komla, Jeanne Hamill, Jeanne Turck, Anna Marie Uram, and Lisa Stegemeyer. ## Alumni Clubs to Hold Telethons for Loans

Two Southern Illinois University alumni clubs will hold telethon campaign this month to help provide scholarships and loans to students.

The St. Clair County Alumni Club held its campaign this week and will continue on Feb. 16. Last year \$1,394 was raised in St. Clair County through the telethon.

The Madison County Alumni Club will hold its campaign Feb. 22-23 and March 1. Last year its members contributed \$2,000.

According to Warren Stoekey, assistant director of alumni relations, six scholarships were given to students. Fifty-one loans and 10 grants have been awarded here since inauguration of the program in 1963.

Three hundred and sixty-eight loans were made last year. Each dollar in the loan fund, he pointed out, was used five times.

"More money for scholarships and loans will be needed this year," Stoekey said, "due to the raise in tuition and the general economic situation."

### Granite Cityans are Guests at Powell Hall 'Fiesta Espanola'

Many Granite City residents were among the 1,000 guests attending the Fiesta Espanola celebrating the third anniversary of the opening of Powell

Highlighting the evening's

festivities was a concert by the St. Louis Symphony Orchestra, featuring a program of Spanish music and the premiere of a Maestro Walter Susskind and Assistant Conductor Leonard Slatkin.

Guest artists, Jose Greco and Nana Lorus, performed solo dances and appeared together.

Their presentation ranged from the gay and charming "Castellana," which relates the story of a courtship between a young boy and girl to the well-known "Bolero," by Ravel.

A buffet dinner consisting of a variety of Spanish dishes was served following the concert.

After the usual dessert course served 18 members, Mrs. Carl Mathias gave a program of Cottee College, Nevada, Mo., one of the P.E.O. projects.

Announcement was made of the next Metro-East Round Table to be held in March, and members were asked to bring a dish to be served at the meeting for the P.E.O. Home.

The March meeting will be held with Mrs. Mathias, 34 Oaklawn Drive.

Proceeds from the Festi-

## Snowmobiles New Traffic Hazard; 70 Deaths in '70

With an estimated one million or—better yet—another snowmobiles across the U.S., survival symbols across the nation, this relatively new winter craze is snowballing into an accident hazard of alarming proportions according to the Insurance Institute for Highway Safety.

Snowmobiling accident tolls have mounted steadily since the sport caught the American fancy a few years ago.

During the 1969-70 winter season, more than 100 persons were killed as a result of snowmobile accidents and hundreds of others were injured.

As is the case with automobiles, human error remains a factor for most snowmobiling accidents. Lack of experience, excessive speed, alcohol and poor visibility are common causes.

Most of the accidents involve collisions with other vehicles and fixed objects and drownings after breakthroughs and spills on ice.

To reduce accidents, the insurance agencies snowmobilers to follow some simple safety measures.

Drivers should never travel unfamiliar trails without a map and whenever possible should be accompanied by a passenger

## Anti-Smoking Campaign Set In County, Area

One of the two health project proposals approved in meetings of the Bi-State Regional Medical Program advisory committee will mount a coordinated anti-smoking education program in Madison County and five other Missouri and Illinois counties.

The committee approved the project subject to a \$27,000 budget cut to \$71,000 for the year.

The participants are St. Louis City, St. Louis, St. Charles and Jefferson counties in Missouri and Madison and St. Clair counties in Illinois.

The program was designed by the Bi-State Interagency Council on Smoking and Health, composed of 30 health or health-related organizations in the state metropolitan areas. Submission of the proposal for funding review by the U.S. Department of Health, Education and Welfare depends upon acceptance of the proposal by the Interagency Council, Dr. William Stoneman III, Bi-State RMP coordinator, said.

The second health proposal developed by the advisory committee will hasten benefits of new medical knowledge and technology to patients in the region by providing "on-site" continuing education programs for physicians.

Hospitals Participate

Programs will be established in hospitals in Litchfield and Mount Vernon and Farmington, Mo., Dr. Stoneman said. Hospitals are St. Francis in Litchfield, Good Samaritan in Mount Vernon, and Farmington Community Hospital in Farmington.

Designed in cooperation with staff physicians in the hospitals in those areas, the programs will be offered by the Bi-State RMP and presented by a faculty including specialists from the region's medical schools.

"Among the many demands made on the hospital's time is the well-recognized need for continuing education," said Dr. Stoneman. Presenting tailor-made programs to the physician's own needs reduces the time problem while ensuring the physician the opportunity to update his professional knowledge and continue delivery of quality care to his patients.

The program is budgeted for three years at a total cost of \$54,759.

**Collide in Intersection**

The autos of Vasil Grayville, 1616 Sixth St., Madison, and Sam Rossman, 1729 Fourth St., Madison, collided at 4:30 p.m. Monday in the intersection of Sixth Street and Alton Avenue. Grayville told police he did not see Rossman's auto because of sun in his eyes. The left front of Grayville's auto and the right front of Rossman's vehicle were damaged.
